Overview

Europe is facing new challenges with the arrival of high number of migrants, refugees and asylum seekers during the last years. The project partners of Digital Inclusion will collaborate for the better integration of these people in the labour markets and the European societies, developing adult educators' competences to respond efficiently to the needs of diversified groups of learners and to utilize new technologies for better outreach and teaching outcomes.

Objectives

The project Digital Inclusion aims to:

- strengthen the cooperation and networking between organisations from countries most affected by the refugees' crisis;
- test and implement innovative practices in the field of education and training of specific target groups;
- better prepare and deploy the education and training of professionals for equity, diversity and inclusion challenges in the learning environment;
- promote the integration of refugees, asylum seekers and newly arrived migrants through enhancing their basic skills and key competences for achieving better social and labour inclusion in the European Community;
- encourage the utilisation of Open Educational Resources (OERs) to provide digital training tools and give access to education to migrants, refugees and asylum seekers.

Activities

The proposed action will promote and use the potential of OERs to provide digital access to education and training and digital tools for social inclusion in partner countries and abroad.

The following activities are included:

- Development of e-learning course, available in 6 languages
- Trainings for migrants/refugees/asylum seekers in 6 EU countries
- Creation of network for cross-border cooperation
- Regional dissemination conferences
- International Multiplier Forum

RED DE COOPERACIÓN TRANSFRONTERIZA "INCLUSIÓN DIGITAL"

EN EL MARCO DEL PROYECTO "Herramientas digitales para la inclusión de refugiados, solicitantes de asilo y migrantes"
PROGRAMA ERASMUS, KA2 - EDUCACIÓN PARA ADULTOS

AFILIACIÓN
La red de cooperación transfronteriza "Inclusión digital" es una red voluntaria informal creada en el marco del proyecto Erasmus (acción clave Asociaciones estratégicas) "Herramientas digitales para la inclusión de refugiados, solicitantes de asilo y migrantes".

LA RED
El objetivo principal de esta red voluntaria es fortalecer la colaboración transfronteriza entre las organizaciones que trabajan en los campos pertinentes y crear un grupo de expertos. La idea es contribuir a la facilitación de la comunicación entre las organizaciones pertinentes en toda Europa, especialmente en las áreas relacionadas con la inclusión social y laboral de los refugiados, los solicitantes de asilo y los migrantes, así como permitir el intercambio de conocimientos y experiencia. A través de la red se reforzará la concienciación y la promoción de acciones relacionadas con el campo de la crisis del refugio en Europa. El alcance de esta red debe ser sostenible una vez finalizado el proyecto Erasmus y se utilizará como punto de referencia para futuros proyectos y partes interesadas.

EL PROYECTO
El proyecto es implementado por la DGSSIS - Comunidad de Madrid en asociación con la Comunidad de San Egidio en España, la Unión de Autoridades Locales de la Región Sudeste en Bulgaria, la Asociación sant'Andrea apostolo della carita en Italia, el Hilfbarbäuser Bildungszentrum e. V. en Alemania, la Universidad de Nicosia, el Centro para el Avance de la Investigación y el Desarrollo en Tecnología Educativa Ltd - CARDET en Chipre y el Centro para el Derecho Constitucional Europeo en Grecia. La duración del proyecto es de dos años (2016-2018). Los objetivos del proyecto son los siguientes:

- fortalecer la cooperación y el trabajo en red entre las AEP, los centros de investigación y los organismos públicos de los países más afectados por la crisis de los refugiados;
- probar e implementar prácticas innovadoras en el campo de la educación y la capacitación de grupos objetivo específicos;
- preparar y desplegar mejor la educación y la capacitación de profesionales para los desafíos de equidad, diversidad e inclusión en el entorno de aprendizaje;
- promover la integración de los refugiados, los solicitantes de asilo y los inmigrantes recién llegados y crear conciencia sobre la crisis de los refugiados en Europa;
- alentar la utilización de Recursos Educativos Abiertos (REA) para dar acceso a herramientas educativas y de capacitación digital a migrantes, refugiados y solicitantes de asilo.
