**PRUEBAS PARA LA OBTENCIÓN DEL TÍTULO DE TÉCNICO SUPERIOR  
“AUDIOLOGÍA PROTÉSICA”**

**Convocatoria correspondiente al curso 2020-2021**

*(Resolución de 12 de enero de 2021 de la Dirección General de Educación Secundaria,  
Formación Profesional y Régimen Especial)*

DATOS DEL ASPIRANTE			FIRMA
APELLIDOS:			
Nombre:	D.N.I. N.I.E. o Pasaporte	Fecha: 11 DE MAYO DE 2021	
Código del Ciclo SANS01	AUDIOLOGÍA PROTÉSICA		
Código del Módulo CM14	INGLÉS TÉCNICO PARA GRADO SUPERIOR		

**CONTENIDO DE LA PRUEBA:**

**1. Hearing loss ..... in decibels.**

- a) are measured      b) is measured      c) have been measured      d) had measured

**2. Which is NOT a symptom of an inner ear infection?**

- a) Feeling of fullness in the ear  
b) Dizziness or spinning sensation  
c) Drainage of fluid from the ear  
d) Nausea and vomiting

**3. Causes of conductive hearing loss include**

- a) genetic factors  
b) fluid in the middle ear  
c) malformation of the pinna  
d) lack of oxygen during birth

**4. Labyrinthitis is an inner ear disorder. It occurs when one of the  
..... in your inner ear becomes inflamed.**

- a) semicircular canals      b) vestibular nerves      c) hair cells      d) structures

**5. The eardrum is .....**

- a) a strong membrane      b) not a membrane      c) an airtight membrane      d) a tissue

**6. Cochlear implants bypass damaged portions of the ear and directly stimulate**

- a) the auditory nerve      b) the ossicles      c) the eardrum      d) the auditory channel

DATOS DEL ASPIRANTE			FIRMA

Nombre:	D.N.I. N.I.E. o Pasaporte	Fecha: 11 DE MAYO DE 2021	

**7. Which is NOT a type of hearing aid?**

- a) In-the-Ear.
- b) In-the-Canal.
- c) Completely-in- the-Ear.
- d) Completely-in-the-Canal.

**8. An audiogram will show how ..... sounds need to be at different frequencies for you to hear them.**

- a) clear
- b) loud
- c) low
- d) different

**9. Which one is a characteristic of the Meniere's Disease?**

- a) earwax
- b) fever
- c) runny nose
- d) pressure in the ear

**10. Which one is NOT a sign of swimmer's ear?**

- a) Stuffy nose
- b) Redness
- c) Ear pain
- d) Fluid drainage

**11. Vestibule and ..... are involved in the sense of equilibrium**

- a) semicircular canals
- b) the ossicles
- c) the eardrum
- d) the vestibular nerves

**12. Ear infections are more common in children because their Eustachian Tubes are ..... than in adults**

- a) softer
- b) narrower
- c) thinner
- d) younger

**13. The case holding the electronic components of a hearing aid is made ..... hard plastic.**

- a) with
- b) by
- c) of
- d) from

**14. Stenosis is a closure or narrowing of .....**

- a) the ear canal
- b) the Eustachian tube
- c) the inner ear
- d) the eardrum

**15. Deafness is a partial or complete loss of hearing, also known as hearing .....**

- a) impediment
- b) deficiency
- c) cripple
- d) impairment

**16. He ..... on the grass and looked up the sky in silence.**

- a) lied                      b) lain                      c) laid                      d) lay

**17. I can't hear you very well, can you .....?**

- a) speak up    b) speak low    c) speak aloud    d) speak

**18. I think you have an infection, you .....go to the doctor**

- a) should                      b) mustn't                      c) would                      d) can't

**19. If only we ..... today**

- a) won't have to work                      b) wouldn't have to work  
c) didn't have to work                      d) don't work

**20. Spanish? Yes. I picked it up ..... and by reading newspapers.**

- a) by hear                      b) hearing                      c) on ear                      d) by ear

**21. I.....bought a digital hearing aid.**

- a) had to have    b) should have    c) have to have    d) had had

**22. That audiologist is not ..... about the impression he makes.**

- a) concerning                      b) concerned                      c) concern                      d) concernable

**23. I .....the doctor's opinion on my last visit**

- a) must have misunderstood                      b) must misunderstand  
c) should have misunderstood                      d) should misunderstand

**24. Hearing aids amplify sounds .....they may be detected by damaged ears.**

- a) since                      b) so that                      c) because                      d) so

Nombre:	D.N.I. N.I.E. o Pasaporte	Fecha: 11 DE MAYO DE 2021	

**25. The longer you ignore your hearing loss, the more hearing .....**

- a) you can lose that can never be recovered
- b) you'll lose that can never be recovered
- c) you lose that can never be recovered
- d) you would lose that can never be recovered

**26. Don't worry, you'll soon ..... a hearing aid.**

- a) be used to
- b) used to
- c) get used to
- d) the three are correct

**27. The GP suggested.....**

- a) that I have to rest at home after the accident for fifteen days
- b) that I should rest at home after the accident for fifteen days
- c) to rest at home after the accident for fifteen days
- d) that I must rest at home after the accident for fifteen days

**28. You will be deaf in twenty years.....you stop going to clubs**

- a) so
- b) if
- c) unless
- d) supposing

**29. ....I had difficulty hearing, I could hear children and women's conversations**

- a) As for
- b) But
- c) Although
- d) Since

**30. I had difficulty hearing. I could distinguish between different voices,  
.....**

- a) although
- b) in addition
- c) too
- d) however

**31. The loss of hearing affected my sister .....**

- a) very bad
- b) worse
- c) very serious
- d) very badly

**32. Sound may be heard ..... solid, liquid or gaseous matter.**

- a) along
- b) through
- c) across
- d) by

**33. Some audiologists like all patients ..... a hearing aid before selling it to them**

- a) trying                      b) to try                      c) will try                      d) try

**34. Hearing dogs, .....are trained to alert children, also help them to improve behaviour.**

- a) that                      b) whom                      c) which                      d) what

**35. The audiologist warned me not.....to discotheques**

- a) going                      b) go                      c) coming                      d) to go

**READ THE FOLLOWING TEXT AND CHOOSE THE CORRECT OPTION:**

### *Hearing dogs*

Dogs are commonly known as man's best friend, but it turns out they may also be a child's – particularly if the child is one of the 45,000 deaf children in the UK. "Hearing dogs", as they are known, could transform many young lives by offering companionship, confidence and independence. Not only that, but these specially trained dogs could improve children's behaviour and lead to better academic performance, a recent study has found. Children are also more likely to wear a hearing aid, which often leads to improved speech.

James Cheung is 11 years old and the owner of Kurt, a golden labrador retriever. Kurt is specially trained to respond to household sounds that a deaf child cannot hear, like a telephone ringing or any alarms going off in the home.

But Kurt has proved to be much more than just a dog who hears. "He is a wonderful accompaniment to our family," says James's mother, Louise. "James had sleep anxieties, which he was being treated for, but now that Kurt sleeps in his bedroom he feels much less isolated when he takes out his hearing aid at night." Kurt has also helped James's social interaction, which he had always found difficult because of a speech disability.

Hearing dogs are trained to alert children by touching the child with their nose. They can also be used to carry messages in a small purse.

All hearing dogs are retired at 11 years of age but families usually keep them. "The connection between family and hearing dog is so strong. It's a joy to see they just become part of the family," says Louise.

**36. Hearing dogs can help deaf children improve their results at school**

- a) true      b) false      c) doesn't say      d) sometimes

**37. Kurt sleeps five hours at night**

- a) true      b) false      c) doesn't say      d) at the weekend

**38. Hearing dogs are trained to respond to sounds that a child can hear**

- a) true      b) false      c) doesn't say      d) sometimes

**39. Hearing dogs help children with a hearing impediment meet and interact with new people**

- a) true      b) false      c) doesn't say      d) occasionally

**40. The opposite word for *deaf* in the text is**

- a) hear      b) hearing      c) alert      d) disability

**41. A synonym for *link* appearing in the text is**

- a) interaction      b) accompaniment      c) lead to      d) connection

**42. According to the text, hearing dogs**

- a) are ordinary dogs  
b) are trained to do a job  
c) are easily distracted  
d) can jump very high

**43. According to the text**

- a) hearing dogs aren't very special  
b) hearing dogs become a part of the family  
c) hearing dogs love eating treats  
d) hearing dogs alert children using their paws

**44. Choose the most appropriate sentence**

- a) Hearing dogs can help with more than just hearing  
b) Hearing dogs work best at 11 years old  
c) Hearing dogs distract children from schoolwork  
d) Hearing dogs respond to all sounds around them

Nombre:	D.N.I. N.I.E. o Pasaporte	Fecha: 11 DE MAYO DE 2021	

**45. Choose the most appropriate sentence**

- a) Children feel calmer when they have a hearing dog
- b) Deaf children feel calmer when they have a hearing dog
- c) Deaf children learn to speak with a hearing dog
- d) Children learn to hear with a hearing dog

**LISTEN TO THE PASSAGE AND LOOK FOR THE CORRECT OPTION:**

**46. The process of hearing involves sound waves creating mechanical \_\_\_\_\_.**

- a) torsions      b) waves      c) nerves      d) motions

**47. The movement of the tiny bones in the ear moves \_\_\_\_\_ in the inner ear.**

- a) fluids      b) the tympanic membrane      c) the cochlea      d) nerves

**48. The structure filled with fluid in the inner ear is known as \_\_\_\_\_.**

- a) the cochlea      b) nerve receptor      c) auditory ossicles      d) tympanic membrane

**49. There are many hair \_\_\_\_\_ that cover the inside of the cochlear.**

- a) cells      b) nerve      c) bone      d) brain

**50. Signals are carried through the vestibulocochlear nerve, cranial nerve eight to the \_\_\_\_\_ of the brain.**

- a) interpretation      b) temporary side      c) temporal lobe      d) sound wave

### PREGUNTAS DE RESERVA

**51. Conductive hearing loss can be caused by a ..... in the outer ear.**

- a) block                      b) bloqued                      c) blockage                      d) blocking

**52. Earwax provides protection ..... bacteria**

- a) with                      b) to                      c) towards                      d) against

**53. They didn't tell me ..... I expected about the audiometric test.**

- a) that                      b) which                      c) what                      d) nothing

**54. Which one is NOT a cause of swimmer's ear?**

- a) Inflammation and irritation of the bone and tissues at the bottom of the skull.  
b) Scratching the ear or inside the ear.  
c) Getting something stuck in the ear.  
d) Tugging the ears.

**55. A hearing aid is .....**

- a) a hearpiece                      b) a hear-piece                      c) an earpiece                      d) an ear-piercing
